

**Re: RoHS 2002/95/EC Directive & WEEE Directive.**

**RoHS Directive**

1. As manufactures of instrumentation for the measurement of vibration and displacement, Monitran Ltd are exempt form the Directive as our products are classed as WEEE category number nine: Monitoring and control instruments.
2. We do, however, have a programme in place whereby we are fully compliant.

**WEEE Directive**

1. The UK Government passed the legislation for the Directive on 1<sup>st</sup> July 2006.
2. We are applying the WEEE label to our products.
